

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective July 1, 2019

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions, revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the Blue Cross and Blue Shield of Texas (BCBSTX) drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. Changes effective July 1, 2019, are outlined below.

Drug List Updates (Coverage Additions) - As of July 1, 2019

Basic, Basic Annual, Multi-Tier Basic, Multi-Tier Basic Annual, Multi-Tier Enhanced and Multi-Tier Enhanced Annual, Multi-Tier Enhanced and Multi-Tier Enhanced Annual AIMOVIG (erenumab-aooe subcutaneous soln auto-injector 140 mg/mL) NIVESTYM (filgrastim-aafi inj 300 mcg/ml, 480 mcg/1.6 ml (300 mcg/ml)) REVCOVI (elapegademase-IvIr im soln 2.4 mg/1.5ml (1.6 mg/ml)) TRESIBA (insulin degludec inj 100 unit/ml) UDENYCA (pegfilgrastim-cbqv soln prefilled syringe 6 mg/0.6 ml) VENCLEXTA (venetoclax tab 10 mg, 50 mg, 100 mg) VENCLEXTA (venetoclax tab 10 mg) VENCLEXTA STARTING PACK (venetoclax tab therapy starter pack 10 & 50 & 100 mg) Basic, Basic Annual, Multi-Tier Basic and Multi-Tier Basic Annual Drug Lists PROGRAF (tacrolimus packet for susp 0.2 mg, 1 mg) Transplant Rejection Prophylaxis Balanced, Performance, Performance Annual, Performance Select and Performance Select Annual Drug Lists ACTEMRA ACTPEN (tocilizumab subcutaneous soln auto-injector 162 mg/0.9 ml) ARAKODA (tafenoquine succinate tab 100 mg (base equivalent)) ARIKAYCE (amikacin sulfate liposome inhal susp 590 mg/8.4 ml (base eq)) buprenorphine hcl-naloxone hcl sl film 2-0.5 mg, 4-1 mg, 8-2 mg, 12-3 mg (base equiv) CELLCEPT (mycophenolate mofetil for oral susp 200 mg/ml)	Preferred Drug ¹	Drug Class/Condition Used For

DISPENSING LIMIT CHANGES

The BCBSTX prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration (FDA) approved dosage regimens and product labeling.

Please note: The dispensing limits listed below only apply to select members whose plan has moved to quarterly updates on their prescription drug list. BCBSTX members on an annually updated prescription drug list will have these dispensing limits applied on or after Jan. 1, 2020.

Effective July 1, 2019:

Drug Class and Medication(s) ¹	Dispensing Limit(s)	
	erformance Annual, Performance Select, and	
Performance Selec	t Annual Drug Lists	
Arikayce

UTILIZATION MANAGEMENT PROGRAM CHANGES

- Effective July 1, 2019, the following changes will be applied:
 - The Ophthalmic Prostaglandins Step Therapy (ST) program will change its name to: Glaucoma. The program, which applies to the Basic and Enhanced drug lists only, includes the same targeted medications and two new ones, Rhopressa and Rocklatan. The program criteria remains the same.
 - Several drug categories and/or targeted medications will be added to current Prior Authorization (PA) and Step Therapy (ST) programs for standard pharmacy benefit plans, upon renewal for select members' plans. As a reminder, please review your patient's drug list for the indicator listed in the Prior Authorization or Step Therapy column, as not all programs may apply. Additionally, please be sure to submit the specific prior authorization form the medication being prescribed to your patient.

Drug categories added to current pharmacy PA standard programs, effective July 1, 2019, **

Drug Category	Targeted Medication(s) ¹	
Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists		
Alternative Dosage Form	Carafate suspension, Naprosyn suspension	
Arikayce	Arikayce	
hATTR Amyloidosis Neuropathy	Tegsedi

¹Third-party brand names are the property of their respective owner.

Per our usual process of member notification before implementation, targeted mailings were sent to members affected by drug list revisions and/or exclusions, dispensing limit and prior authorization program changes. For the most up-to-date drug list and list of drug dispensing limits, visit the Pharmacy Program section of our Provider website.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit *bcbstx.com* and log in to Blue Access for MembersSM (BAMSM) or MyPrime.com for a variety of online resources.

Select Prescription Drug Lists' Update Frequency Changed April 1, 2019

As a reminder, most of the prescription drug lists that were once updated annually Jan. 1, or plan renewal date, are moving to a quarterly update. For patients on these affected drug lists, the frequency change is being implemented upon the patient's health insurance plan renewal/effective date starting on or after April 1, 2019.

This update frequency change includes the following drug lists:

- Enhanced, Multi-Tier Basic and Multi-Tier Enhanced
- Note: Some members moved to a quarterly update upon their health insurance plan's renewal/effective date that started on or after April 1, 2019, regardless of prescription drug list. However, some members will remain on an annual update. If your patients have any questions about their drug list, please advise them to contact the number on their member ID card. Members may also visit bcbstx.com and log in to BAM or MyPrime.com to view their specific drug list.
- **Note:** For those drug lists that remain on an annual update, or until a plan has moved to a quarterly update (where applicable), the drug list name has been changed to include "Annual" in the title. Both the quarterly updated and annually updated drug lists are posted on the Pharmacy Program section of our Provider website.

^{**} Applies to select members July 1, 2019. Members on an Annual drug list may not see these changes applied until their renewal date.

Member Cost-Share Updates to Novolog Insulin Products

Recent news headlines have focused on the rising insulin drug prices and the affect it can have on patient access to these medications. Starting July 1, 2019, BCBSTX members, who have prescription drug benefits administered by Prime Therapeutics, may see reduced cost shares for Novolog vials and Novolog Flexpen insulin products.* Only members with a coinsurance or high deductible health plan, based on the member's benefit plan, may see this cost share reduction. Those members with a copay benefit will not see any changes in their cost-share amounts.

Members will pay the same or less for the preferred Novolog products than the Insulin Lispro (Humalog) products that were recently introduced to the market by Eli Lilly. These Insulin Lispro (Humalog) products are non-preferred or excluded on our drug lists, based on the member's benefit plan.

Please call the number on the member's ID card to verify coverage.

*This change does not apply to members with Medicare Part D or Medicaid coverage and select employer group health plans.

Prime Therapeutics LLC is a pharmacy benefit management company. BCBSTX contracts with Prime to provide pharmacy benefit management and related other services. BCBSTX, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime. MyPrime.com is an online resource offered by Prime Therapeutics.

The information mentioned here is for informational purposes only and is not a substitute for the independent medical judgment of a physician. Physicians are to exercise their own medical judgment. Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage which may vary from the limits set forth above. The listing of any particular drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
